

GIGA-TRONICS

8651A

The Giga-tronics 8651A is a single-channel universal power meter from the 8650A series, designed for accurate and rapid measurement of CW, peak, and average power in sophisticated communication systems.

SPECIFICATIONS

General Specifications

Product Model	8651A
Series	8650A Series
Measurement Units	dBm, Watts

Measurement Performance

Reference Power Output	0 dBm @ 50 MHz
------------------------	----------------

Software and Remote Control

Programming Language Support	SCPI (Standard Commands for Programmable Instruments)
------------------------------	---

TECHNOLOGY

RF Power Measurement

APPLICATIONS

Wireless Communication System Testing, RF Device Characterization
