

KEYSIGHT TECHNOLOGIES (AGILENT HP)

6690 Series - 6600W

The Keysight (formerly Agilent / HP) 6690 Series encompasses high-power (6600 W), highly accurate single-output DC system power supplies. Designed for demanding applications such as manufacturing test and long-term burn-in, the series includes the 6690A, 6691A, and 6692A models. These supplies feature built-in DMM-quality measurement, reliable DUT protection (OVP and OCP), low ripple, and extensive remote programming capabilities via GPIB and analog control.

SPECIFICATIONS

General

Interfaces	GPIB
