

KEYSIGHT TECHNOLOGIES (AGILENT HP)

DSO80204B

The Keysight (Agilent) DSO80204B is a 2 GHz, 4-channel real-time oscilloscope belonging to the high-performance Infiniium DSO80000B Series. Designed for deep memory applications and premium signal integrity, it offers real-time sample rates up to 40 GSa/s, an extremely low noise floor, and ultra-low jitter, making it ideal for high-speed digital designs and advanced electrical compliance measurements.

SPECIFICATIONS

Power

AC Input Frequency Range	47 - 63 Hz
--------------------------	------------

TECHNOLOGY

Digital Storage Oscilloscope

APPLICATIONS

High-Speed Serial Bus Debugging, Signal Integrity Analysis, Jitter Characterization
