

KEYSIGHT TECHNOLOGIES (AGILENT HP)

U2049XA

Keysight Technologies U2049XA is an RF/microwave average power sensor intended for precision power measurements under external control. It fits into Keysight's modern power-sensor lineup for automated and bench measurements.

SPECIFICATIONS

General

Display	None (no integral display)
---------	----------------------------

RF Measurement Performance

Measurement Type	Average RF power
------------------	------------------

RF Input Characteristics

Input Impedance	50 Ω
-----------------	-------------
